

TASK4-SOCIAL MEDIA DO'S AND DON'T'S

DO'S	DON'T'S
Set daily time limits e.g. 1-2 hours to balance studies and scrolling.	Share your personal details like addresses, phone or live locations publicly.
Verify information before sharing to avoid spreading fake news.	Post content while emotional or intoxicated-sleep on it first.
Use privacy settings to control who sees your posts and profile.	Engage in cyberbullying or heated arguments, block and report instead.
Curate your feed with educational accounts for motivation.	Overshare academic info like exam dates or assignment details.
Network professionally with a polished profile e.g. LinkedIn for internships.	Compare yourself excessively to influencers, focus on your goals.

Following these helps protect mental health, reputation, and future opportunities
